- Soften Dark RD provides deeper colour yield against color loss in finishing applications.
- Soften Dark RD is suitable for foulard method.

PROPERTIES

Chemical Structure	Silicone emulsion
Appearance	Milky white liquid
Ionic Character	Slightly cationic
pH	5.0–7.5
Solubility	Soluble in water in any ratio

APPLICATION

Application amounts varies depending to desired final hand–feeling.

Foulard Method

30–80 g/L Soften Dark RD

pH :4.5–5.5

Pick–up: ~70–80%

Drying & Curing 130–150°C

Storage and handling

Suitable storage condition is 12 months in closed containers.

(Sensitive to freezing and temperatures above 40°C)
