

SEGAFLUID ASO 1204 LV

Amino Functional Silicone Oil

Segafluid ASO 1204 LV is an amino-silicone fluid with a reduced amount of cyclic siloxanes. It contains 100% of actives. Designed to provide softness and lubricity to variety of fabrics and garments, while minimizing the problem of yellowing. Segafluid ASO 1204 LV has also excellent gloss for automotive polishes. Segafluid ASO 1204 LV is used in textile, personal care and automotive applications.

FEATURES

Chemical Structure	Mixture of polysiloxane compound and special components
Appearance	Clear transparent
Active Content	100%
Viscosity	800 cSt to 1600 cSt
Specific Gravity	0.980 (25/25°C)
Amine Content	0.33-0.35 meq

- Provides good softness
- Provides greasy / soft hand to cotton and wool.
- Gloss and shine to automotive
- Easy to emulsify and produce whether micro or macro-emulsions
- High amino content and low yellowing
- Low viscosity, easy to handle
