

Sodecron CN

Dyes for polyester specially

recommended in dyeing polyester blends

Özellikle polyester ve karışımlarının boyanmasında
önerilen boyalar

- Good all round fastness
İyi düzeyde haslık özellikleri

- Suitable for exhaust
Exhaust boyamaya uygunluk

- Economical
Ekonomik

**Sodecron CN****Dyes for polyester specially recommended
in dyeing polyester blends**

Polyester ve karışımlarının boyamasında önerilen boyalar

Fastness Properties (1/1 SD) / 1/1 Renk Derinliğinde Haslık Özellikleri

Sodecron CN dyes are medium energy dyes for rapid, economical, suitable exhaust and continuous dyeing. Sodecron CN boyaları, exhaust ve continue boyama yöntemlerine uygun, hızlı, ekonomik ve orta molekül boyalardır.

Dyeing process for 100% polyester / %100 polyester boyama işlemi

Rating / Değerlendirme

- 5- Excellent / Mükemmel
- 4- Good / İyi
- 3- Fair / Orta
- 2- Poor / Zayıf
- 1- Very poor / Çok Zayıf

Abbreviation / Kısaltmalar

- C - Change shade / Renk Değişimi
- CO - Staining on Cotton / Pamuk üzerine kirlenme
- PA - Staining on Nylon / Naylon üzerine kirlenme
- PES - Staining on Polyester / Polyester üzerine kirlenme
- WO - Staining on Wool / Yün üzerine kirlenme

SODECRON CN DYES

SODECRON CN BOYALARI

Sodecron CN dyes are compatible range of economical, medium energy dyes for rapid, reliable exhaust and continuous dyeing of polyester and its blends with other fibres.

Orta moleküllü Sodecron CN boyaları ile ekonomik ve tekrarlanabilir, çektirme ve continue proseste polyester boyama yapılabilir.

- Excellent build-up and economical. / Mükemmel renk verimi ve ekonomik
- High productivity in exhaust dyeing through optimized rapid dyeing. / Optimum hızda, boyamada üst seviyede verim.
- Good all-round colour fastness. / İyi düzeyde renk haslıkları.
